Construction

Activity House – Director Gray provided the following update on the Activity House:

Activity House grant-related work in March was primarily confined to completion of the installation of a new energy-efficient heat-pump system to heat and cool the primary public areas of the Activity House. This project included removal of the old gas wall heater and related drywall and interior painting work to cover its removal. Photos of the new system are included in the District’s April status report to the State.
